METALLICS: Colour may vary between production runs, so the entire quantity for each project must be purchased in one order. Due to the composition of this paint film, metallic colours are not recommended for use in coastal environments. **BRIGHTS:** These colours are not available with ceramic pigmentation, and therefore the level of colour retention is not as high as others. There is no colour fade warranty given on these colours.

Am I covered?

It's easy to check before you buy.
